**ACTOR ROSS HELD HIS OWN.**

But the Company's Manager, as Referee, Knocked Him Out.

CHICAGO, May 3.—Charles J. Ross and Charles Canfield, both of the "Passing Show" Company, now playing at the Chicago Opera-house, indulged in a lively fight last night in the green-room of the theater. Ross accused Canfield, the "wardrobe master" of not taking proper care of certain articles. They came to blows and the fight waxed hot and furious. The delighted stage hands formed a ring around the combatants and urged them on. They fought all over the green-room, only ceasing long enough to fall down stairs into Ross' dressing-room, where the fight was renewed. When the men were separated both were badly punished, Ross having a very dark eye. The manager of the show then acted as referee by discharging Ross from the company.

**PETROLEUM IS TOO HIGH.**

So the People of Luxemburg May Use Gas and Candles.

WASHINGTON, D. C., May 3.—Vice Commercial Agent George H. Murphy at Luxemburg, under date of April 22, reports to the State Department upon what he terms the phenomenal rise in the price of petroleum. It has recently doubled in that market. The local papers assert that the rise is due to the failure of American oil wells, and advance the use of Russian petroleum. Heretofore the Grand Duchy of Luxemburg has been almost entirely dependent upon American petroleum for illumination, but it is now possible that gas and candles may to a great extent close the market to American petroleum. The price of oil in Luxemburg was at the date of writing 10 cents a quart.

Another Advance in Price of Leather and Shoes.

Special to the Post-Dispatch.

NEW YORK, May 3.—Another rise in the price of leather was the unwelcome news that went through the shoe trade yesterday. The advance amounted to about 15 per cent which means that \$4.75 will now be charged for shoes that formerly sold for \$4, while the \$4 shoes will cost \$4.75.

The listed advance was from 30 to 35 cents a pound for sole leather, which formerly sold for 20c. There were similar advances in nearly every kind of leather, and the manufacturers have been given to understand that the top-notch has not yet been reached. All the manufacturers now have orders for the fall trade, and to all of these word has been sent to advance prices 35 per cent. Those that find it impossible to obtain the advance rates have been ordered to end their trade immediately.

It was said that several factories in this city would surely shut down unless there was a decline in the price of material.

The advance of prices advanced prices 25 per cent on Wednesday, and the trade expects similar action by the manufacturers for the fall trade, and to all of these word has been sent to advance prices 35 per cent. Those that find it impossible to obtain the advance rates have been ordered to end their trade immediately.

## Christy Masterson's Murderer Has Left the Scene of His Crime.

The police have about concluded that "Kid" Carroll, the murderer of Christy Masterson, has escaped from the city. Right of Chief Desmond's men, as well as a number of policemen in citizens' clothes, who are well acquainted with the murderer, have been scouring the city for him since a few hours after the crime was committed. Every clue, no matter how slight, that they thought might lead to the discovery of the much-wanted man, has been followed up without avail.

When Carroll left the Summit Hotel at Seventeenth and Olive streets early in the afternoon of the day of the crime, he covered his tracks as effectively as though the earth had opened and swallowed him. The police can find no one who saw him after that time, neither can any trace be obtained of the direction he took after leaving the hotel.

The theory that he got out of the city is strengthened by the statement made by McGiligan, the hack-driver, to the effect that when Carroll engaged his services, a short time after the murder was committed, he first asked to be driven to the Union Station. This fact, the police claim, shows that the idea of escape from the city was then uppermost in Carroll's mind. Carroll was then in an excited state of mind and somewhat under the influence of liquor.

Before the Union Station was reached Carroll changed his mind and asked to be driven to the Summit Hotel instead. This change of plan, the police argue, was due to the fact that Carroll, although he had been drinking freely, was not too drunk to realize that his blood-stained and generally battered appearance would attract excited suspicion at the crowded station.

The police believe that after washing himself and changing his clothes Carroll hid himself down on the bed in his room and awaited a few hours' rest. On awakening, the enormity of his crime must have come to him and he became possessed of a desire to get away. It is his opinion that the main avenues of escape from the city would be carefully watched he doubtless made other plans and left no time in slipping undetected out of the hotel and carrying them out.

There is little doubt but that he was plentifully supplied with money, some \$200, the proceeds of the robbery, and it is now thought that he either walked or took a car to the city limits and then made his way to some suburban station, where he boarded an out-going train.

Circulars giving a full description of the murderer will be issued and sent broadcast through the country. It is also said that Gov. Stone will be requested to offer a reward for his apprehension.

Poor Mr. Johannes Was Beaten.

When the case against L. W. Johannes of 104 Pine street, charged with wife abduction, was called in the Court of Criminal Correction Friday morning, the defendant reversed. Johannes, who is a manufacturer of underwear, alleged as a defense that he had to leave his wife because she was a prostitute. When he went back at intervals to try to effect a reconciliation, she threatened to blow his brains out.

## Scott's Emulsion

will cure a stubborn cough when all the ordinary cough remedies have failed. Try it for yourself. We are putting up a fifty-cent size chiefly for that purpose. A cough is usually the telltale of a weakened physical condition. Correct that condition by the use of a proper remedy and the cough will soon disappear.

Scott's Emulsion of Cod-liver Oil and Hypophosphites acts in two ways. It nourishes, strengthens and builds up the system, at the same time allays the irritation and heals the inflammation. It gives immediate relief at night from the choking sensation so often accompanying a cold.

Don't be persuaded to take a substitute! Scott's Emulsion, 50c. and \$1.
